DETAILED ACTION

1. Responsive to the Applicant's Response to Election/Restrictions Letter filed on 11/9/05, the Examiner respectfully withdraw the restriction requirement sent on 10/6/05 and send out a new requirement for restriction/election as follow.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-51, drawn to a gated diode memory cell, classified in class 257, subclass 288.
 - II. Claims 52-53, drawn to a method of writing to a diode memory cell, classified in class 365, subclass 175.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the gated diode memory cell in Inventions I can be programmed with other writing method (i.e. flash, . . .) than that method claimed in Invention II whereas the method in Invention II can be applied to program for other memory types (i.e SDRAM, EEPROMS.. ..) than that claimed in Inventions I.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2824

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. Eric M. Parham on 2/3/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
